

Introducing, Sefte[®]

 better air
lower bills

 Designed
in the UK

 3 year
warranty

Quiet. Gentle. Undisturbed.

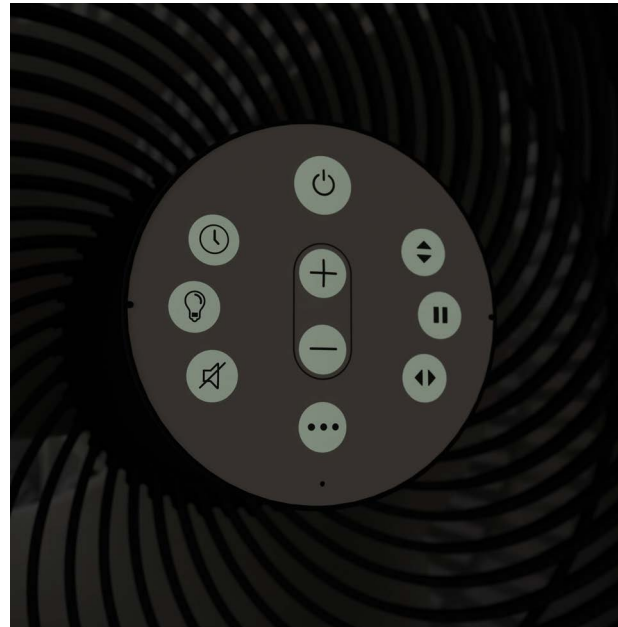

Designed in Britain by our UK Research and Development team from the ground up, with over 30 years of air treatment expertise and customer insight. We have created an all new air circulator range delivering more air, less noise and less energy.

Air Beam Precision

Our engineers wanted to offer customers more control than ever before with 3 oscillation ranges. Now, customers can select from a focused, narrow beam to deliver air precisely where they sit, a medium angle for cooling larger areas, or a wide angle for whole-room coverage.

No more fumbling in the dark

Our glow-in-the-dark remote control helps customers see the buttons easily – even in the dark. The user-centric design gives you a tactile circular remote that is magnetic for easy storage in the centre of the unit when not in use.

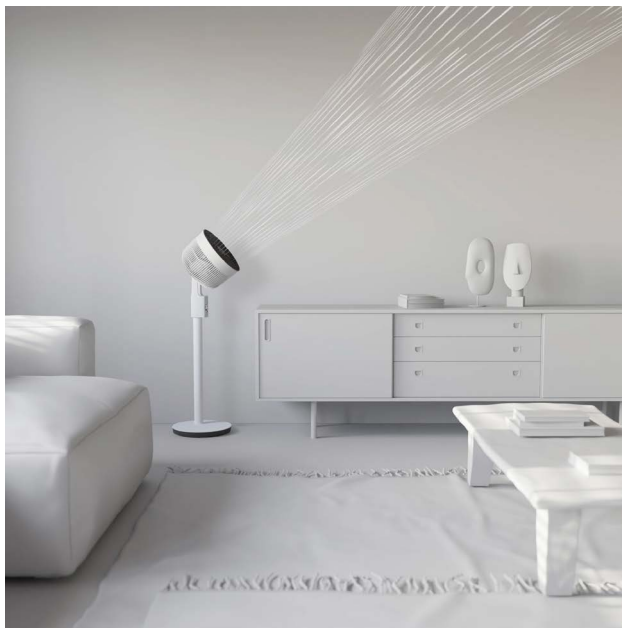

For life's ups and downs

Seftē® Pedestal's innovative PowerPole offers full adjustability, from full height, to medium all the way down to tabletop, making it one of the most versatile fans available on the market. Stability at any height without the need for clips, buttons, or cables.

Shhhhhh...

Precision engineering puts a state-of-the-art brushless, low energy, DC motor at the heart of our air circulator. Driving a spin speed of over 1450RPM, our motor quietly drives air up to 20 metres.

Go with the flow

Sefte® has both horizontal or vertical oscillation options which can be used independently to give customers cooling where it's needed most. Our handy 'pause' feature now allows customers to remotely stop oscillation for precision cooling.

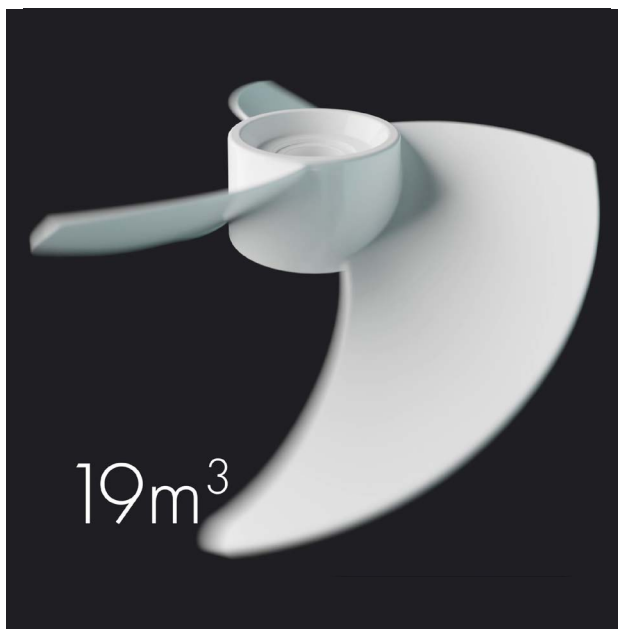

Clean and clear

Who wants to get up every time the fan needs adjusting? Our big, clear digital display tells users everything they need to know, at a glance, with a large temperature display in the middle and the fan speed displayed around the outside.

High and mighty

It's the details that make all the difference. We've raised the display and remote control receiver from the base to the top of the pedestal, so that you can adjust the operation of the Sefte® air circulator whether you are lying in bed or sitting in a chair.

Wall-to-wall cooling

The deep blade design we use is proven to propel more air further into your room, and Sefte® delivers an astonishing 19m³ of air per minute, giving you the ultimate in cooling technology. The combination of the blade, the powerful DC motor and the innovative rear net design results in a larger volume of air.

Do not disturb

Meaco's trademark low noise design is fundamental to our Sefte® range, creating a cool, calm atmosphere with noise levels quieter than a whisper. Our engineers meticulously researched, designed, tested, and refined every component of Sefte®, minimising solid casing and smoothing components for quieter airflow.

Specification	MeacoFan Sefte® 10" Pedestal Air Circulator	MeacoFan Sefte® 10" Table Air Circulator
RRP	£179.99 / €179, 99	£119.99 / €129, 99
Dimensions (HWD)	591-1098 x 340 x 340 mm	432 x 305 x 227 mm
Cable length	1.6 m	1.6 m
Weight	5.4 kg	3 kg
Horizontal oscillation angles	30° / 75° / 120°	30° / 75° / 120°
Vertical oscillation angles	20° / 30° / 65°	20° / 30° / 65°
Air flow	19.18 m³ / min	19.18 m³ / min
Air volume	1150.80 m³ / hour	1150.80 m³ / hour
Noise level	From 25 dB	From 25 dB
Power consumption	8 - 26 watts	8 - 26 watts
Standby power consumption	0.5 watts	0.3 watts
Remote control battery	CR2025 or CR2032	CR2025 or CR2032
Modes	Normal, ECO, Night	Normal, ECO, Night
Warranty	3 years	3 years
