Superior suction with PowerCyclone 12 technology, TriActive Smart nozzle adapts to your floor type, Longest runtime - 80min on eco setting(1), Includes Aqua Module to mop, Max versatility with handheld, 4 Pet & LED tools

XC7055/01

## Highlights

### Superior suction on all floors

The PowerCyclone 12 & PowerBlade digital motor work together to generate great airflow speed (up to 1080 L/min(4)) energy-efficiently. The PowerCyclone 12 technology is inspired by aviation engineering for exceptional cleaning of dust and dirt. This results in powerful cleaning on all floors without running out of battery.

### Triactive Smart LED Nozzle

The TriActive Smart LED nozzle is engineered with triple action to clean up to 99.9%(5) of dust and dirt in a single stroke on multiple floor types. Auto setting adjusts suction power based on your floor type, and lets you customize the brightness of the LED lights so you can see even the smallest speck of dust. If you prefer, you can also choose from 3 different speed modes that you fully control. The nozzle cleans up to 0mm close to edges and into corners.

### Easy to use, pet accessories

Reach every area easily by configuring the vacuum cleaner to your needs. Effortlessly turn the stick in a handheld and click on one of the accessories with LED guide. So, you can see every little bit of dust while cleaning. Pet nozzle helps keeping your house free of fine and long hairs, by easily removing them from different surfaces - including the sofa or pet bed. The long crevice tool helps to reach narrow spaces. 2-in-1 combination tool switches easily between a soft brush for dusting delicate surfaces and a wide crevice tool.

### Swap battery, clean for longer

Get the job done in one go! In one charge Philips 7000 Series cleans more than 360 m2 in Eco mode and more than 135 m2 in Turbo mode(3). Even in Turbo setting you can clean the entire house. Extra batteries and a fast charger (XV1797) are available as an accessory to double this coverage.

### Easy control with LCD display

The digital display enables you to control the device and gives all information you need during and after your cleaning session. Adjust the brightness and speed easily via the display. If filter is full, you will get notification. Pretty smart.

### Click-on aqua module

Why not do a quick wet touch up while you vacuum for a more thorough overall clean in one go? Our easy-to-attach and remove Aqua Module uses a damp microfiber cloth to remove a variety of stains while you vacuum.

### Anti allergy filter system

Enjoy better air quality at home thanks to our anti allergy filtration system filter capturing over 99.9%(9) of pollen, pet hair, dust mites and other fine dust particles inside, creating a healthier environment for people with allergies. And for everyone!

### Designed to last

Reliable vacuum cleaner, designed and built for powerful cleaning sessions over time. 2 years guarantee. IF design award winner 2024. DEKRA certified. This product contains recycled plastic. For every thousand Philips Cordless Vacuum Cleaners sold, we reduce the use of virgin plastics as much as 1,422,500 plastic straws.

# Specifications

## Nozzles and accessories

Standard nozzle: PrecisionPower Smart Nozzle

Accessories included: Aqua module + 1 microfiber pad, Upholstery tool with LEDGuide, Crevice tool with LEDGuide, Combination tool with LEDGuide

Additional nozzle: Mini TurboBrush (XV1684)

## Performance

Battery type: Replaceable Lithium-Ion

Sound power level: < 80 dB

Battery voltage: 25.2 V

Charging time: 6.5 hour(s)

Runtime: Up to 80 minute(s)

Runtime (turbo): Up to 30 minute(s)

Airflow (max): 1100 l/min

## Design

Color: Coral Red

## Weight and dimensions

Dimension of box: 20 cm x 31 cm x 71 cm

Weight of handheld: 1720 gram

## Sustainability

Recycled Plastic inc. accessories: 569 g

## Filtration

Dust capacity: 0.6 L

Motor filter: Washable filter

Filter System: 5-stage filtration
